

The following is a list of types of tanks that are exempt from Underground Storage Tank (UST) regulations. These tanks may need to be registered with another agency. Additionally, if there is a release, spill or confirmed contamination associated with these tanks, the release must be reported immediately to the Environmental Response Team (ERT) at (502) 564-2380 or (800) 928-2380. The subsequent cleanup activities may also be regulated by another agency. Please read this information carefully.

Tank	Registration and Permit Agency	Clean-up agency
